A 37-year-old worker dies in the Port of Bilbao

THE WHEEL OF THE TRUCK THAT THE OPERATOR WAS CHANGING HAS EXPLODED

EP / BILBAO 05/20/2020 | 21:12

The operator who died in the Port of Bilbao was 37 years old Oskar M. Bernal

A 37-year-old employee of Vulcanizados Retuerto died this afternoon in an occupational accident that occurred at the facilities that the Port of Bilbao in Santurtzi. The incident occurred, apparently, when the operator was changing the wheel of a truck and it has exploded, according to sources from the Basque Department of Labor.

An individual has reported to the emergency services at four o'clock this afternoon that an occupational accident had occurred with serious consequences for a worker.

Immediately displaced to the scene, the medical services of the Port Authority have tried to resuscitate the victim, without success, for which reason a doctor has certified his death.
