04.24.2020

The 57-year-old man was hit by a container crane.

A serious accident occurred this afternoon inside a San Antonio extra-port compound, where a worker died after being run over by a heavy container crane when he was carrying out work there.

The incident occurred after 7:00 p.m. inside the premises of the Depósito y Contenedores (DYC) company, located in the Alto Cartagena intersection sector.

In the place, the man, with the initials V.T.R. (57) was hit by heavy machinery, causing serious injuries to his two limbs.

The hospital was informed of the admission of a subject who died from crushing and the order was given for the Legal Medical Service to carry out the corresponding expert reports," San Antonio chief prosecutor Osvaldo Ossandón explained to SoySanAntonio.cl.
