

# Van Don: A worker at Hon Net port died due to a labor accident

11/12/2022

**During operations, a floating crane discharging coal from a foreign ship to a Vietnamese ship at Hon Net port in Van Don island district (Quang Ninh), experienced the collapse of its rotating superstructure which fell to the deck of the barge. The operator of the crane remained inside the crane's cab and was fatally injured.**

On the morning of November 12, 2022, information from the People's Committee of Van Don district (Quang Ninh), said that at the Hon Net transmission area in Thang Loi commune, Van Don district, a labor accident had occurred. one person was seriously injured and died after being taken to the hospital for emergency treatment.

Specifically, at about 11:30 a.m., on 9/11, at Hon Net N2-5 transshipment area in Thang Loi commune, Van Don district (Quang Ninh), Huy Manh 02 self-propelled floating crane belongs to the company. Huy Manh Limited has an address in Dong Trieu Town (Quang Ninh) and is operated by Mr. LVT (SN 1997, residing in Trang An Ward, Dong Trieu Town).

At that time, Mr. T was lifting coal from the MINERAL ship (Panama nationality) to the ship NB-2896 belonging to Cuong Thinh Co., Ltd. based in Ninh Binh province when suddenly the crane pillar broke, leading to the crane body and cabin being damaged. separated from the crane post, fell to the deck of the self-propelled barge, causing serious injury to the person driving the crane, Mr. LVT, sitting in the cabin. Immediately after that, Mr. T was brought to the mainland for emergency treatment.

However, because the wound was too severe, at 12:30 on the same day (November 9), Mr. T died.
