

Worker dies inside the Veracruz port area

Por [Carlos Navarrete](#) | Lunes, Julio 24, 2023 |

He was an employee in the maintenance area.

Veracruz, Ver.- This Monday, July 24, inside the Veracruz port area, a maintenance area worker identified as Jonathan N, approximately 30 years old, lost his life.

The version about the death of a person inside the facilities of the port of Veracruz began to circulate on social networks.

At the moment, the Administration of the Veracruz National Port System (ASIPONA) has not provided details regarding the information, however journalistic sources indicate that the death occurred in one of the container yards.

Due to the secrecy with which the information has been handled, it is unknown how the employee lost his life. The only thing that is known is that he died from a work accident.
