

## ILA-USMX JOINT SAFETY COMMITTEE

OSH Circular 2014-01 [01 April 2014]

### Online Safety Knowledge You Can Use

Consistent with the accords arrived at within the recently executed ILA-USMX Joint Safety Resolution, the ILA-USMX Joint Safety Committee (JSC) has an obligation to closely coordinate with the activities of the National Maritime Safety Association (NMSA) and must also strive to provide useful OSH-related information to all of our industry's stakeholders.

To that end the JSC would like to set out the following hyperlinks, allowing access to several fatal accident-based video presentations developed by NMSA over the past few years. The workplace safety stories that each relates, contain excellent guidance and instruction to *both* marine cargo handling industry workers and managers. We ask you to take their messages to heart. Your life may depend on it.....!

**Longshore Safety Video No. 1 ~ Safe Operation of Top Loaders**
