

TARANTO: The body of the crushed crane worker is found

July 10, 2019 - 5 hours ago Editorial Staff

The news is that a few minutes ago the search for the worker who fell into the sea ended. The man, 31 years old of Fragagnano, in the province of Taranto, was found without life.

The storm that broke out on Taranto around 1900 and its winds overwhelmed the crane, in the Mittal port area, on which the young worker was operating.
