

The Aden Port Command directs an investigation into an accident that caused the death of a worker at the port of Al-Mualla

Aden Ling - Abdullah Al Sharafi Saturday, 26 October 2019 01:09 AM

The Executive Chairman and Chairman of the Board of Directors of the Port of Aden, Dr. Mohamed Alawi Amzrabh, quickly directed the investigation into the death of a worker.

Adham Mohammed Khalid, a "counting clerk" of a shipping company, died during the unloading of the timber from the ship in the port of Mualla.

A source at the Information Department in the port of Aden said that the port leadership asked the competent authorities within the port to expedite the investigation and submit the results of the investigation to it on Sunday morning in order to take appropriate measures to reduce these incidents and hold those responsible accountable.

The port leadership expressed its regret over the incident and extends its deepest condolences and sincere sympathy to the family of the late Adham Mohamed Khaled Haidar.

May God rest his soul through His mercy, forgiveness, satisfaction, and His abode in his paradise, and inspire his family and his family with patience and solace.
